Forst&Technik

The highest-circulation trade and association magazine for the forestry contractors, timber transporters and forestry machine drivers.

Forst&Technik offers a comprehensive range of topics with up-to-date reports on the economy, the timber market, trade fairs, association work and operational practice and is therefore the source of information not only for forestry practitioners but also for forestry machinery manufacturers, forestry equipment suppliers and outfitters.

Target group

- Forestry businesses, timber transporters, small private wood owners, forestry technicians, managers and master craftsmen in state machine businesses and in local authority businesses and also landscaping firms.

AFZ-DerWALD

AFZ-DerWALD is the only informative and specialist magazine independent of any association through which all state and local forestry businesses and private forests can be reached nationwide.

AFZ-DerWALD is also an important information medium for forestry research and development institutes and training establishments.

With practical articles on subjects such as the use of machinery, forestry work, forestry policy and the timber market, *AFZ-DerWALD* serves as an intermediary between research, teaching and forestry practice.

Target group

- Decision-makers in forest management authorities of the Federation, the states and local authorities, private forests and research and teaching establishments.

Deutscher Waldbesitzer

As an official association body, it offers readers from the forestry associations of Hessen, Lower Saxony, Schleswig-Holstein, Mecklenburg-Vorpommern, Brandenburg and Saxony Anhalt as well as the AGDW current association news and background reports on the wood market, silviculture, forestry technology and forestry policy. The professional presentation of topics had led to a continual increase in readership, particularly in Southern Germany.

Target group

- Decision-makers in forest management authorities of the Federation, the states and local authorities, private forests and research and teaching establishments.

Proof

A colour-true proof is essential and must be sent to the publishers' or printers' before the print run. Without this, we cannot guarantee the quality of printing and accuracy of the advertisement's motif. Where no proof has been provided, we cannot accept complaints.

Colour advertisement production

Euroscale printing: Colour shades are achieved through combination printing. Deviations in the range of toleration correspond with the current status of offset printing technology. Special colours are only possible on the cover pages!

Shades that cannot be created from the Euroscale (HKS special colours) are possible on request – separate costing!

Samples for inserts, bound-in booklets, glued-in inserts

Before accepting an order, the publisher requires five authentic samples by the deadline for advertisements in the relevant issue:

Deutscher Landwirtschaftsverlag GmbH

Anzeigen *Forst&Technik* or

AFZ-DerWALD or

Deutscher Waldbesitzer

Lothstr. 29, 80797 München, Germany

The authenticity of fulfilment of an order cannot be finally decided upon until the samples have been submitted.

Electronic Data transmission

gabriele.lorenz@dlv.de

Transfer of the data only with accurate statements of the customer's name, property, issue no. and content of the print material transfer.

Delivery date

Inserts, bound-in booklets and glued-in inserts must be delivered 10 days before the issue of the magazine at the least.

Volume of the issue required upon request.
